SUMMARY

Versatile analytics professional with 10+ years of experience building and optimizing data systems for tech startups and Fortune 500 companies. Proven track record of slashing operational costs and boosting performance using modern data stack technologies like Snowflake, DBT, and Airflow. Directed cross-functional teams to deliver high-impact projects, including a dynamic pricing platform for a multi-billion dollar real estate portfolio that significantly increased occupancy rates. Passionate about leveraging SQL, AI, machine learning, and cloud platforms to spark data-driven innovation and accelerate business growth.

AREAS OF EXPERTISE

- Data Engineering & Architecture
- CI/CD for Data Workflows
- Data Modeling & Warehousing
- Cloud Data Platforms
- Team Building & Leadership
- Business Intelligence & Analytics
- AI & Machine Learning

INDUSTRY EXPERIENCE

- E-commerce
- Tech Startups
- Direct Marketing
- Entertainment
- Real Estate
- Advertising
- Hospitality

SKILLS

Data Engineering & Analytics

- DBT | Airflow | Pandas | Jupyter | Spark | Kafka | Fivetran | Prefect
- Tableau | Looker | Sigma | GoodData | Metabase

Data Warehouses & Databases

- Snowflake | BigQuery | Redshift | Microsoft SQL Server | Oracle
- Neo4j | PostgreSQL | DynamoDB | MongoDB | MySQL

Cloud Platforms & DevOps

- AWS | Azure | Google Cloud | Kubernetes | Terraform | Docker
- Git | Linux | Helm | Serverless | Microservices | Datadog

Architecture & Development

- Miro | Sparx Systems Enterprise Architect | API Design | REST | GraphQL
- SQL | Python | JavaScript | Go | Ruby | Java | C# | R | HTML | CSS | Bash

Infrastructure & Networking

- Active Directory | Group Policy | DNS | Exchange | Jira Insight

EXPERIENCE

Senior Data Engineer | Cloud Solutions Architect

Stackless Data Inc., Pleasant Hill, CA

January 2022 to Present

- Architected ETL/ELT data pipelines using DBT, Airflow, and Snowflake, improving query performance by 40% and reducing operational costs by 25%
- Modeled multiple scalable data warehouses for diverse clients, integrating various data sources (e.g., Shopify, NetSuite, Salesforce, custom APIs) to enable real-time streaming analytics and actionable business insights
- Designed a unified identity graph to enable advanced identity resolution and effective user matching across integrated data sources
- Mentored junior developers, fostering skill growth and promoting best practices
- Implemented CI/CD pipelines using GitHub Actions, resulting in a 60% reduction in deployment time, and employed Great Expectations to ensure data quality

Data Engineer | Senior Systems Engineer | Operations Manager

American Homes 4 Rent, Las Vegas, NV

May 2015 to November 2021

- Oversaw a team in delivering a pricing website for a \$9+ billion portfolio, unifying home attributes & market condition evaluation, resulting in a 15% increase in occupancy rates, built with AWS Lambda, AppSync, and DynamoDB
- Drove data platform modernization strategy, implementing best practices from semantic modeling to analytics
- Developed web crawlers for competitor pricing and inventory data collection
- Orchestrated testing and release pipelines using Azure DevOps for code and cloud resource deployment via Terraform
- Rolled out an enterprise-scale landing zone and migrated on-premises servers to cloud infrastructure
- Automated patching for ~200 VMs, improving system security and reducing maintenance time

Direct Mail Marketing Manager

Silver Sevens Hotel & Casino, Las Vegas, NV

July 2012 to March 2015

- Led a marketing team responsible for direct mail and digital marketing efforts across eight casinos, leveraging data-driven forecasting, predictive analytics, and customer lifetime value models for targeted guest segmentation
- Implemented an automated loading process that reduced response time for direct mail and email campaigns from 45 to 10 days, significantly improving campaign efficiency and increasing new player acquisition and retention

EDUCATION

West Liberty University, West Liberty, WV

- Bachelor of Science, Business Information Systems
- Bachelor of Science, Computer Information Systems
